Why we chose this topic

- Most of the news about AI is very negative; we wanted to shine a light on a positive way AI can benefit people.

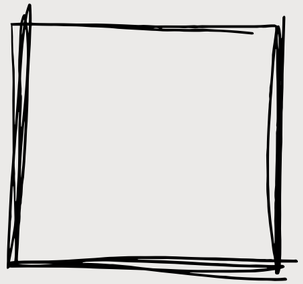
- AI is just like every other tool created by people. It has both advantages and disadvantages.

⇒ The challenges Tobi faced are real challenges that immigrants in Canada have to endure, but AI can be used to benefit their lives by providing them with the tools they need to succeed.

Design Process

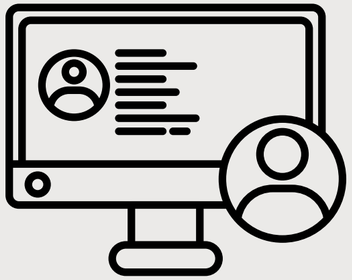
The Character

The initial character was Amir, a Nigerian who recently arrived in Canada but whose name was later changed to Tobi.



Storyboard

- We first created a rough storyboard on Canva → after receiving feedback from Cole, we made some changes to make it more fleshed out.
- Then, we showed our storyboard to Gabby, who gave us more feedback, which we applied to the storyboard.
- Then used that storyboard to create the scrolly-telling story for our project.



Using Vev

Building the scrollytelling dashboard

Design Changes

The character's name changed from Amir to Tobi to better suit the story. As Tobi is a common name in Nigeria.

The medium started as an explainer video but was changed to a scrolly-telling story.

Adjusted our color palette

Changing fonts to match

Changing visuals to ensure all of them are consistent, no 2d and 3d, just 2d charts.

Changed character from new immigrant in Canada to new graduate.

Our Charts:

What Charts Did We Want

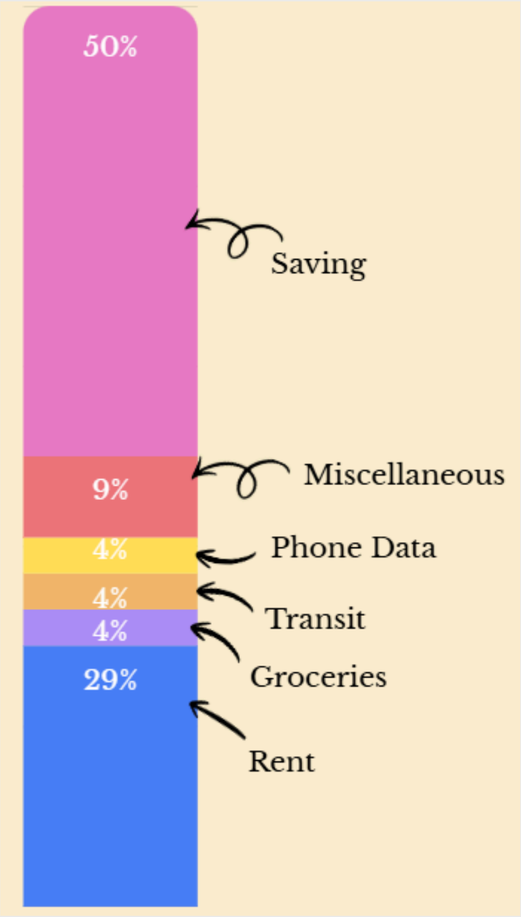
- Line Charts
- Bar chars
- Donut Charts

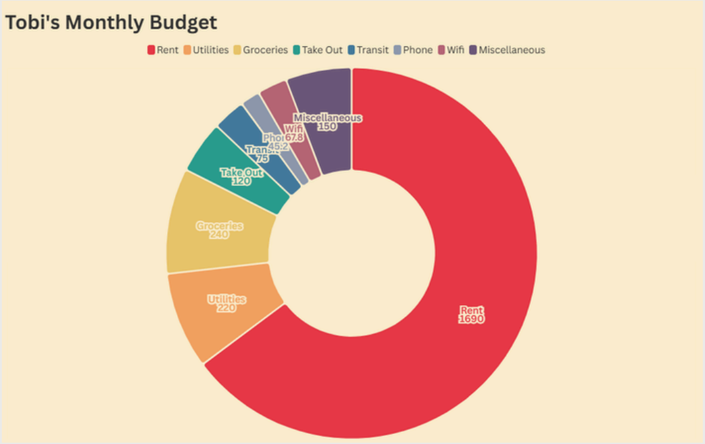
How Did We Make The Chartsl

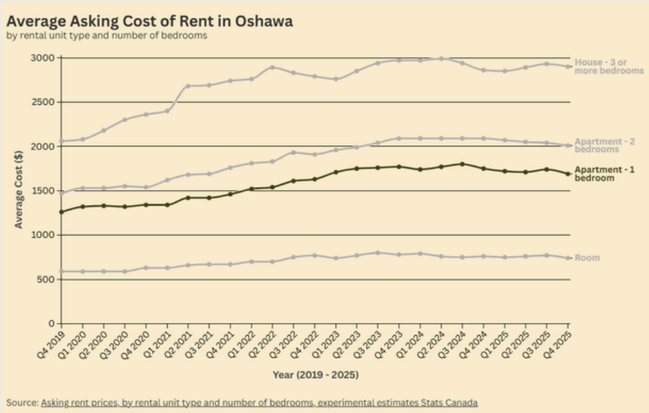
- We Used:
  - Flourish
  - & Canva

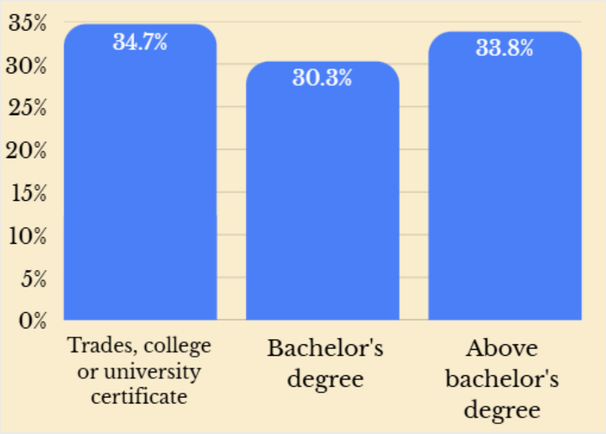
How Did We Make Our Story:

- We used a website called:
  - Vev









Problems

1. Finding a topic
2. Looking for related data
3. Finding a Scrolly telling site
4. Limited features on free plans on platforms like ArcGIS and Vev

Key Insight

- AI compresses years of trial and error into faster path to meaningful employment
- There are a lot of overqualified immigrants in Canada who are forced to take low-wage part time jobs to provide for their families.
- AI can be used as a tool that saves people time and money

The End

Thank you
